

EUROPEAN COMMISSION
JOINT RESEARCH CENTRE

Directorate F - Health and Food (Geel)
Unit F.6 - Reference Materials

Geel, 14 February 2025

DECLARATION OF CONFORMITY AND ORIGIN

ERM-CE194, ERM-CE195 and ERM-CE196

- The material was produced around 1983 from bovine blood. Blood was lysed, centrifuged, spiked dispensed and freeze dried.
- The processing took place in Marburg, Germany. The material was produced by the European Commission, Brussels, Belgium, Belgium.
- The material did not originate from a facility where work with exotic disease agents affecting livestock or avian species is conducted.
- The material is not an antisera.
