DECLARATION OF CONFORMITY and ORIGIN

To whom it may concern

This is to certify that the materials ERM-EC590 and ERM-EC591

- are plastic materials prepared from commercial low density polyethylene (LDPE) and polypropylene (PP), respectively, obtained from DSM Resolve, Geleen, The Netherlands and do not constitute a risk to human health and environment different from other commercial LDPE or PP materials.
- are a polymer samples bottled at our premises. Processing was carried out under conditions avoiding any cross contamination. Based on the available information and knowledge, any infectious danger resulting from an exposure to the material can be excluded.

Prof. Dr. H. Emons
